

# Deloitte LLP

Deloitte LLP is the world's largest professional services network with around 263,900 professionals at member firms delivering services in audit, tax, consulting, financial advisory and risk advisory in more than 150 countries and territories. Deloitte's revenues for fiscal year 2017 were US\$38.8 billion.

Synetica supplied enLink Air LoRa wireless air quality monitors to Deloitte's brand-new signature HQ building at One New Street Square at the heart of their central London campus and the new home for their mobile, agile and flexible workforce.

Deloitte's new HQ has attained WELL Certified Gold – a prestigious distinction awarded by the International WELL Building Institute to workplaces that enhance people's health and wellbeing.

In achieving Gold certification, One New Street Square is now the largest WELL Certified Gold for 'New and Existing Interiors project' in the world. The office earned the distinction based on seven categories of building and operational performance including air, water, light, nourishment, fitness, comfort and mind.
